

FREEMOTION®

GENESIS™

DUAL CABLE CROSS LITE

MODEL # G424

CABLE STRENGTH GENESIS™

Slightly smaller than the iconic original, the Dual Cable Cross Lite is ideal for rehab facilities, studios, hospitality, rec centers, and more. Featuring the same impressive flexibility and total-body workout as the traditional machine, this modified version also allows exercisers to push, pull, twist, bend, squat, and lunge their way to health – all with one piece of equipment. The counterbalanced arms make it effortless to change positions and target any muscle in the body, while the open design makes it wheelchair accessible and welcoming for all body types. With a dual weight stack and generous cable travel, the Dual Cable Cross Lite is effective at working all planes, all directions, and all abilities.

GENESIS™ DUAL CABLE CROSS LITE

PRODUCT FEATURES

ENDLESS POSSIBILITIES

Each independently rotating arm has more than 100 unique positions to accommodate virtually any movement pattern. Each arm is also counterbalanced for quick and easy positioning.

MOVE HOW YOU WANT TO

Extended cables allow for full exercise extension and a wide range of travel while providing a smooth resistance. Each Cable is 89 in / 218 cm.

ENCLOSED DUAL WEIGHT STACKS

Enclosed weight stacks (210 lbs / 95.2 kg each) limit access to moving parts for safety. Dual independent stacks allow two users to workout simultaneously.

SWIVEL PULLEYS

The pulley design creates fluid cable travel and a nearly unlimited range of motion.

PERSONALIZE YOUR WORKOUT

Unilateral arms move independently to create single or dual-arm exercises that build strength with balance and symmetry.

INDUSTRIAL CONSTRUCTION

Built with 11 and 7-gauge steel and electrostatically powder-coated, this machine is built to last.

WHEELCHAIR ACCESSIBLE

An open design makes this piece wheelchair accessible and welcoming to users of all fitness levels.

SPECIFICATIONS

Dual Weight Stacks	Each Stack: 210 lbs / 95.2 kg
Effective Resistance	3:1 cable ratio with 3.3 lbs / 1.4 kg per plate, 70 lbs / 31.8 kg per stack
