

T5

RECUMBENT CROSS TRAINER

Transform your life.

NuStep, Inc. is proud to present the T5 Recumbent Cross Trainer, the product of a four-year collaborative effort that drew on the expertise of exercise physiologists, ergonomic specialists, and our customers.

The T5 is a mid-level model that offers many of our latest NuStep innovations, including features and adjustments designed to offer the benefits of life transforming exercise to patients, clients, club members, and home users alike.

Virtually anyone can exercise on the T5, from deconditioned or disabled users to workout warriors and elite athletes. The T5 offers safe, effective, and adaptive exercise with a mid-level feature set and price.

Overall Features

With its easy on and off access and low impact, total body workout, the T5 enables more users to experience the machine.

NEW StrideLock® feature (see over)

Transform

The 360° swivel seat locks at 45° intervals to offer greater accessibility for users of virtually all ability levels.

The new StrideLock® feature locks handles and pedals for added stability and easier transfers.

The NuStep arm handles are easy to adjust with user-friendly clamshell release levers.

Console

Monitor and track user progress, workout programs and machine diagnostics on the large, easy-to-read LCD display console.

- Easy to use
- 15 levels of resistance
- Easy startup with no button press required
- Push button workload control
- Comprehensive data readouts
- Goal setting in time, distance and calories
- Motivational aides
- 8 workout programs including 5 profiles
- On-the-fly programming
- Seat position displayed on screen
- Manager Mode to customize console
- Info button with context sensitive help
- Audible feedback with volume control
- Multiple display languages
- Polar® Telemetry Heart Rate monitoring
- Repeat last workouts feature
- Workout tracking by user ID
- User data tracking up to 200 Users
- Export workout and machine data via USB
- Battery saver mode

Foot Pedals

Designed to accommodate different-sized feet, the T5 pedals keep feet securely in place during a workout.

- Oversized, cushioned foot surface
- Soft heel cups to secure feet
- Dirt slot for cleanliness
